Select a **Primary Contributory Cause** from the list above and enter the corresponding two-digit code in the appropriate field near the lower right corner on the front of the crash report form. When appropriate, enter a **Secondary Contributory Cause** code accordingly.

Definitions

Primary Contributory Cause - The factor which is most significant in causing the crash, as determined by officer judgement.

Secondary Contributory Cause - The second most significant factor contributing to the crash, as determined by officer judgement.

Example

You determine that vehicle speed is the most significant cause of the crash and wireless phone use is the second most significant cause of the crash. Enter 01 in the "PRIMARY" field and 42 in the "SECONDARY" field.
